Share your story. Find your voice.

Creativity Australia's *With One Voice* choirs welcome people from diverse backgrounds, improving wellbeing and building bridges of understanding across cultural, generational, religious and socioeconomic boundaries. The choirs help people find friends and mentors, learn new skills, build wellbeing, confidence and self-esteem, learn English and find jobs. When diverse voices come together as one on a regular basis, the outcomes are transformational!

Visit www.creativityaustralia.org.au to join one of our choir programs. All welcome.
